

To Whom It May Concern,

It is my pleasure to wholeheartedly recommend Douglas Teixeira for any technical or analytical position they may pursue. As CEO and Owner of MB Comércio Importacao e Exportacao Ltda, I had the privilege of working closely with Douglas Teixeira during their tenure as our Senior Foreign Exchange Analyst, where they consistently demonstrated exceptional technical aptitude and innovative problem-solving skills.

While Douglas's primary role focused on export coordination and logistics, their tech-savvy approach and creative solutions significantly enhanced our operations. They implemented streamlined processes for documentation, compliance tracking, and logistics coordination, often introducing digital tools that automated manual tasks and reduced errors. Their ability to quickly master new software and optimize existing systems was invaluable in achieving our 200% operational growth.

What truly impressed me was Douglas talent for troubleshooting. Whether resolving system glitches that disrupt shipping schedules or designing user-friendly templates for quotes and billing, they approached every challenge with a blend of technical skill and ingenuity. Their leadership in training team members on these improvements further amplified their impact.

Beyond their technical strengths, Douglas Teixeira is a collaborative, results-driven professional with outstanding communication abilities. I am confident they will bring the same level of innovation and efficiency to future roles.

Sincerely,

Murilo Bruno

CEO & Owner

Murilo Bruno Importacao e Exportacao LTDA
